Series

LED Linear Highbay

## LED Linear Highbay

PROJECT: \_\_\_\_\_

DATE: \_\_\_\_\_

TYPE: \_\_\_\_\_

PREPARED BY: \_\_\_\_\_

KEY FEATURES
Field-selectable Wattage & Color (CCT) on all models
Compact design for easy deployment
Low glare PMMA lens optimized for visual comfort
Optional Bi-level motion and Networked lighting controls
Emergency backup option

## TECHNICAL SPECIFICATIONS

### COMPLIANCE

**UL Listed**  
UL 1598, Suitable for Damp Location

**IESNA LM79 & LM-80 Testing**  
PacLights LED luminaires have been tested by an independent laboratory in accordance with IESNA LM-79 and LM-80.

**DLC Qualification**  
Selected models of this product are on the Design Lights Consortium (DLC) Qualified Products List and are eligible for rebates from DLC Member Utilities. To view our DLC qualified products, please consult the DLC Qualified Products List at [www.design-lights.org/qpl](http://www.design-lights.org/qpl)

### LED CHARACTERISTICS

**LEDS**  
Long-life, high-efficacy, surface-mount LEDs

**Lifespan**  
100,000-hour LED lifespan based on IES LM-80 results and TM-21 calculations

**Color Rendering Index**  
>82

**Correlated Color Temperature**  
4000K and 5000K CCT selectable with a dip switch

**Color Uniformity**  
PacLights' range of Correlated Color Temperature follows the guidelines of the American National Standard for Specifications for the Chromaticity of Solid State Lighting (SSL) Products, ANSI C78.377-2017

### OTHER

**5-Year Limited Warranty\*\***  
The PacLights 5-year, limited warranty covers light output, driver performance and paint finish.

\*\*PacLights's warranty is subject to all terms and conditions found at [paclights.com/warranty](http://paclights.com/warranty)

### CONSTRUCTION

**IP Rating**  
IP20 rated

**Ambient Temperature**  
Suitable for up to 50° C (122° F) ambient temperature when fixture is suspended at least 18" from ceiling

**Housing**  
Durable cold rolled steel housing provides strength and uniformity. Luminaire is pre-painted to enhanced smooth finish.

**Mounting Methods**  
Comes standard with v-hook and chains. Accessories available for aircraft cable mounting (up to 120" or 196"), surface mounting, or conduit/pendant mounting.

**Green Technology**  
Mercury and UV free, and RoHS compliant.

**Lens**  
Frosted, PMMA

### ELECTRICAL

**Drivers**  
Class 2. Input Voltage: 120-277v AC (optional 480v), 50-60 Hz; 0-10V dimming (dim-to-off); Power Factor > 0.95; THD < 20% ; Surge protected 6kV Common and 4kV Differential Mode.

**Wattage / Input Voltage / Input Current**  
Wattage selectable with a dip switch on all models

Models	Wattage	120v	208v	240v	277v	480v (optional)
FLHB/2-15LM	100w	0.93A	0.53A	0.46A	0.40A	0.23A
FLHB/2-17LM	115w	1.06A	0.61A	0.53A	0.46A	0.27A
FLHB/2-20LM	135w	1.25A	0.72A	0.63A	0.54A	0.31A
FLHB/2-23LM	155w	1.44A	0.83A	0.72A	0.62A	0.36A
FLHB/2-28LM	185w	1.71A	0.99A	0.86A	0.74A	0.43A
FLHB/2-30LM	200w	1.85A	1.07A	0.93A	0.80A	0.46A
FLHB/2-34LM	230w	2.13A	1.23A	1.06A	0.92A	0.53A
FLHB/2-40LM	270w	2.50A	1.44A	1.25A	1.08A	0.63A
FLHB/2-50LM	340w	3.15A	1.82A	1.57A	1.36A	0.79A
FLHB/2-60LM	400w	3.70A	2.14A	1.85A	1.60A	0.93A

## ORDERING INFORMATION

PL8_20P	PLUG-L8-20P	L8-20P Twist Lock Plug	480v	480v ("HV") Models	

must also select "3-wires cord" option

## PERFORMANCE

## STANDARD FEATURES

### Field Selectable Wattage and Color (CCT)

Select the desired output light color temperature by sliding the respective CCT Selection Switch left and right to 4000K (Neutral white) or 5000K (Daylight). Also for the wattage with another dip switch. It can be adjusted before, during and after installation. It offers flexibility on site and reduce complexity of models on preparing installation.

### Compact Size for Easy and Fast Deployment

The compact size of the FLHB models accelerates the installation process significantly, even though they deliver the same lumen performance as full-sized linear high bay lights. This smaller design greatly reduces the time and labor costs associated with large-scale deployments, making it an efficient and cost-effective lighting solution for extensive areas.

## CONTROL Options

### Standalone Sensor Controls (option: -MCP/-MCW/-MCD)

#### Passive Infrared Bi-level Motion & Daylight Control (option: -MCP)

A PIR (Passive Infrared) sensor is capable of detecting variations in infrared radiation, which depend on the temperature and surface properties of objects in its field of view. This sensor has a 3-step dimming function, which is ideal for areas needing gradual light adjustments before a complete shutdown. Additionally, if the daylight function is activated, the sensor can turn off the light based on a preset level of ambient light. The settings for these functions can be fine-tuned with the dip switches on the sensor, or using an optional wireless commissioning device.

Option: -MCP  
SKU: SE-BC-BRI819PBD

Option: -MCW  
SKU: SE-BC-BRI819BD

Option: -MCD  
SKU: SE-BC-BRI819BVAL

Optional  
wireless commissioning  
remote device  
SKU: SE-BC-RC-100

#### Microwave Bi-level Motion & Daylight Control (option: -MCW)

Microwave occupancy control sensors are designed to detect motion through materials such as plastic, glass, and thin non-metallic substances. They are equipped with a 3-step dimming function that is ideal for areas where gradual changes in lighting are preferred before a complete shutdown. If the daylight sensor feature is activated, it can turn off the light based on predetermined levels of ambient light. The settings for these functions can be fine-tuned with the dip switches on the sensor, or using an optional wireless commissioning device.

#### Motion and Daylight Harvesting Control (option: -MCD)

In addition to all the features offered by a microwave bi-level occupancy control, daylight harvesting control further reduces the use of electric lighting in building interiors when natural daylight is available. This function adjusts the artificial lighting levels based on the amount of natural light entering the space, enhancing energy efficiency and providing a more sustainable lighting solution.

#### -MCP / -MCW / -MCD Controls Specification \*default setting

Sensitivity	20%/50%/75%/100%*
Hold Time (before dim)	10s*/1min/5min/10min/15min/20min/30min/60min
Daylight Threshold	10/30*/50/100/300/500 Lux, or Disable
Stand-by Time(before turn off)	1min/30min/60min*, or Never
Stand-by Dimming Level	10%/30%*/50%
Detection Height	up to 40ft
Detection Radius	up to 50ft

### Networked Lighting Control (option: -WBP)

Network Lighting Controls (NLC) offer Luminaire Level Lighting Control (LLLC) based on Bluetooth-enabled Mesh Networking of Luminaires. Individual addressability enables luminaires to be communicated with each other within the zone/network. Luminaires can be grouped, trim and controlled by using the smart device app or connected wall switches. Scheduling, scene and sensors can be added for automation among the lights within the zone/group.

- (-WBP) Wireless bluetooth networked control with PIR occupancy and daylight harvesting sensor

Option: -WBP  
SKU: KEILTON-EFS104

FREE iOS/Android APP will be used to commissioning or customize settings of networked controls.

## EMERGENCY BACKUP Option

### Emergency Battery Backup

When there is a power outage, the emergency backup driver and battery will power the FLHB to a brightness up to 9,000 lumen for at least 90 mins \*

## WIREGUARD Option

### Wire Guard

Optional wire guards can be attached to FLHB High Bays to provide extra protection from physical damage.

## MOUNTING Options

\* conduit/cord shown is not included

### Hook & Chains (STANDARD)

**STANDARD**  
V-hook w/ Chains  
INCLUDED

### Aircraft Cable (option: -ACS/-ACL)

**Option: -ACS / -ACL**  
SKU: AC-LHB-ACS / AC-LHB-ACL

### Pendant Mount (option: -PM)

**Option: -PM**  
SKU: AC-LHB2-PEM

### Surface Mount (option: -SM)

**Option: -SM**  
SKU: AC-LHB2-SFM

## DIMENSIONS

# NETWORKED CONTROLS MADE EASY

**Keilton Networked Controls**, a DLC® Qualified Networked Lighting Controls Product, make it easy for facilities to save energy, improve occupancy comfort and achieve code compliance by adding Luminaire Level Lighting Controls (LLLC) to indoor and outdoor applications. It allows for easy field installation of sensors and network nodes with selected PacLights controls ready fixtures. Using the Keilton app, nodes can be commissioned without the need for a gateway or internet access.

**A Cost-Effective Decentralized Architecture**  
**Direct Mobile Device Provisioning**  
**Best-In-Class Scale, Performance & Reliability**

LEARN MORE, VISIT  
[www.paclights.com/NLC](http://www.paclights.com/NLC)

## FEATURES

- Luminaire Level Lighting Control (LLLC)
- Bluetooth-enabled Mesh Networking of Luminaires and Devices
- Individual Addressability, address individual or multiple luminaires
- High-end and Low-end Trim
- Zoning & Grouping
  - ◊ Add and control up to 100 devices per zone
  - ◊ Add unlimited zones to scale for bigger installation
  - ◊ Create unlimited groups (combination of sensor or network nodes) within a zone
  - ◊ Link and control the whole group or zone
- Scene control
  - ◊ Create and link scenes to individual lights or groups within a zone
  - ◊ Select scene with App or wall switch
- Time Scheduling for individual lights, groups or scenes
- Sensors integrated with BLE, occupancy and daylight sensing
- Multi-level Dimming, Daylight Harvesting and Occupancy controls
- Manual/Automatic ON/OFF and Automatic partial ON/OFF control capability
- Control with wireless wall switch or smart device
- Secure commissioning with Keilton App
- Up to 100 ft node-to-node and 50 ft node-to-device
- Demand Response option (works with OpenADR gateways)
- Controlled 120v 20A Receptacle available
- Other control features to meet code compliance
